

Lithia Reports Record First Quarter 2017 Results

4/19/2017 6:59:00 AM

Increases Dividend to \$0.27 Per Share

Lithia Motors, Inc. (NYSE: LAD) today reported the highest first quarter revenue and earnings per share in company history.

First quarter 2017 unadjusted net income per diluted share increased 30% to \$2.01 from \$1.55 for the first quarter of 2016. Adjusted net income per diluted share increased 15% to \$1.78 from \$1.55 for the same period in 2016. First quarter 2017 unadjusted net income increased 26% to \$50.7 million from \$40.3 million for the first quarter of 2016. Adjusted net income increased 12% to \$45.0 million compared to first quarter 2016 adjusted net income of \$40.4 million.

As shown in the attached non-GAAP reconciliation tables, the 2017 first quarter adjusted results exclude a \$0.23 per share non-core benefit related to legal settlements with two Original Equipment Manufacturers. The 2016 first quarter non-core adjustments resulted in no change to earnings per share.

First quarter 2017 revenue increased 13% to \$2.2 billion from \$2.0 billion in the first quarter of 2016.

First Quarter-over-Quarter Operating Highlights:

- Total same store sales increased 3%
- New vehicle same store sales increased slightly
- Used vehicle retail same store sales increased 6%
- Service, body and parts same store sales increased 8%
- Same store F&I per unit increased \$62 to \$1,353
- SG&A expense as a percentage of gross profit was 71.1%

"Through a disciplined acquisition strategy and strong operational execution, we're pleased to report our 26th consecutive quarter of record earnings per share," said Bryan DeBoer, President and CEO. "We grew revenue 13% and adjusted earnings 12% over last year and a significant number of stores still have ample opportunity to improve. Since 2010, we have grown our revenue four-fold and our EPS seven-fold, all while currently maintaining a leverage ratio of less than two. The ability to flex our balance sheet coupled with our free cash flow provides capacity to continue acquisitions at a similar or accelerated cadence in 2017 and beyond."

Balance Sheet Update

We ended the first quarter with \$31 million in cash and \$255 million in availability under our credit facilities. Additionally, approximately \$218 million of our operating real estate is currently unfinanced, which we estimate could provide \$164 million in capital, for total potential liquidity of \$450 million.

Dividend Payment and Share Repurchases

Our Board of Directors has approved an 8% increase in our dividend to \$0.27 per share related to first quarter 2017 financial results. We expect to pay the dividend on May 26, 2017 to shareholders of record on May 12, 2017.

Since March 31, 2017, we have repurchased approximately 136,000 shares at a weighted average price of \$81.60 per share. Year to date, we have repurchased approximately 198,000 shares at a weighted average price of \$86.41 per share. Under our existing \$250 million share repurchase authorization, approximately \$176 million remains available.

2017 Earnings Guidance

We project 2017 full year earnings of \$8.05 to \$8.35 per diluted share. This projection is based on the following annual assumptions:

- Total revenue of \$9.2 to \$9.4 billion
- New vehicle same store sales increasing 1.5%
- New vehicle gross margin of 5.5% to 5.7%
- Used vehicle same store sales increasing 5.5%

- Used vehicle gross margin of 11.5% to 11.7%
- Service body and parts same store sales increasing 5.0%
- Service body and parts gross margin of 48.2% to 48.4%
- Finance and insurance gross profit of \$1,285 to \$1,310 per unit
- Tax rate of 39.5%
- Average diluted shares outstanding of 25.3 million

These projections exclude the impact of future acquisitions, dispositions and non-core items. Actual results may be affected by items described under Forward-Looking Statements below.

First Quarter Earnings Conference Call and Updated Presentation

The first quarter conference call may be accessed at 10:00 a.m. ET today by telephone at 877-407-8029. An updated presentation highlighting the first quarter results has been added to our investor relations website.

Forward-Looking Statements

This press release includes "forward-looking statements" within the meaning of the "Safe-Harbor" provisions of the Private Securities Litigation Reform Act of 1995. Forward looking statements include statements regarding our goals, plans, projections and guidance regarding our financial position, results of operations, market position, pending and potential future acquisitions and business strategy, and often contain words such as "project," "outlook," "expect," "anticipate," "intend," "plan," "believe," "estimate," "may," "seek," "would," "should," "likely," "goal," "strategy," "future," "maintain," "continue," "remain," "target" or "will" and similar references to future periods. Examples of forward-looking statements in this press release include, among others, statements regarding:

- Expected operating results, such as improved store efficiency and performance; generating 2017 full year earnings of \$8.05 to \$8.35 per diluted share and all projections set forth under the headings "2017 Earnings Guidance";
- Our ability to improve store performance;
- Anticipated acquisition opportunities and additions of dealership locations to our portfolio in the future, and our ability to achieve returns on investments;
- Anticipated revenues from acquired stores; and
- Anticipated availability of liquidity from our credit facility and unfinanced operating real estate.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events that depend on circumstances that may or may not occur in the future. Forward-looking statements are not guarantees of future performance, and our actual results of operations, financial condition and liquidity and development of the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements in this press release. The risks and uncertainties that could cause actual results to differ materially from estimated or projected results

include, without limitation, future economic and financial conditions (both nationally and locally), changes in customer demand, our relationship with, and the financial and operational stability of, vehicle manufacturers and other suppliers, risks associated with our indebtedness (including available borrowing capacity, compliance with financial covenants and ability to refinance or repay indebtedness on favorable terms), government regulations, legislation and others set forth throughout "Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" and in "Part I, Item 1A. Risk Factors" of our most recent Annual Report on Form 10-K, and from time to time in our other filings with the SEC. We urge you to carefully consider this information and not place undue reliance on forward-looking statements. We undertake no duty to update our forward-looking statements, including our earnings outlook, which are made as of the date of this release.

Non-GAAP Financial Measures

This press release and the attached financial tables contain non-GAAP financial measures such as adjusted net income and diluted earnings per share, adjusted SG&A as a percentage of revenue and gross profit, adjusted operating margin, adjusted operating profit as a percentage of gross profit, and adjusted pre-tax margin. Non-GAAP measures do not have definitions under GAAP and may be defined differently by and not comparable to similarly titled measures used by other companies. As a result, we review any non-GAAP financial measures in connection with a review of the most directly comparable measures calculated in accordance with GAAP. We caution you not to place undue reliance on such non-GAAP measures, but also to consider them with the most directly comparable GAAP measures. We present cash flows from operations in the attached tables, adjusted to include the change in non-trade floor plan debt to improve the visibility of cash flows related to vehicle financing. As required by SEC rules, we have reconciled these measures to the most directly comparable GAAP measures in the attachments to this release. We believe the non-GAAP financial measures we present improve the transparency of our disclosures; provide a meaningful presentation of our results from core business operations, because they exclude items not related to core business operations and other non-cash items; and improve the period-to-period comparability of our results from core business operations. These presentations should not be considered an alternative to GAAP measures.
